

Information about the course

Degree: Bachelor of Sciences of Physical Activity and Sport

Faculty: Faculty of Physical Activity and Sport Sciences

Code: 283404 **Name:** Practicum II

Credits: 9,00 ECTS **Year:** 4 **Semester:** 2

Module: 5) External practices.

Subject Matter: External practices. **Type:** Prácticas Externas

Branch of knowledge: Health sciences

Department: Basic Sciences and Cross-disciplinary Subjects

Type of learning: Classroom-based learning

Language/-s in which it is given: Spanish

Teachers:

284A	<u>Concepcion Ros Ros</u> (Profesor responsable)	CONCEPCION.ROS@UCV.ES
	<u>Ana Pablos Monzo</u>	ana.pablos@ucv.es

5) External practices.

Subject Matter	ECTS	Subject	ECTS	Year/semester
External practices.	12	Internship I	3	3/2
		Practicum II	9	4/2

Learning outcomes

Al finalizar la asignatura, el estudiante deberá demostrar haber adquirido los siguientes resultados de aprendizaje:

R10 - Describe and prioritize at a practical level the configuring elements of each of the structures (coordinative, cognitive, conditional, socio-affective, and emotional-volitional) of the different sports modalities at different ages and contexts (educational, recreational, competitive and therapeutic), taking into account diversity.

Learning outcomes of the specified title

Type of AR: Habilidades o Destrezas

- Adapt the educational intervention to the individual characteristics and needs for the entire population and with emphasis on special populations such as: schoolchildren, older people (seniors), people with reduced mobility and people with pathologies, health problems or assimilated (diagnosed and/or prescribed by a doctor), taking into account gender and diversity.
- Apply the principles derived from the concept of integral ecology in your proposals or actions, whatever the scope and area of knowledge and the contexts in which they are proposed.
- Articulate and deploy procedures, processes, protocols, own analysis, with rigor and scientific attitude on matters of a social, legal, economic, scientific or ethical nature, when necessary and relevant in any professional sector of physical activity and sport (formal education and informal physical-sports; physical and sports training; physical exercise for health; direction of physical activity and sport).
- Deploy an advanced level in the planning, application, control and evaluation of physical and sports training processes.
- Design and apply fluidly, naturally, consciously and continuously adequate, efficient, systematic, varied physical exercise and physical condition, based on scientific evidence, for the development of adaptation and improvement or readaptation processes of certain abilities of each person in relation to human movement and its optimization; in order to be able to solve poorly structured, increasingly complex and unpredictable problems and with emphasis on special populations.
- Design and apply the methodological process integrated by observation, reflection, analysis, diagnosis, execution, technical-scientific evaluation and/or dissemination in different contexts and in all sectors of professional intervention in physical activity and sports.
- Develop theoretical-practical responses based on the sincere search for the full truth and the integration of all dimensions of the human being when faced with the great questions of life.

- Identify, organize, direct, plan, coordinate, implement and carry out technical-scientific evaluation of organizational resources and material resources and sports facilities, including their basic and functional design as well as adequate selection and use, for each type of activity, with the purpose of achieving safe, efficient and healthy physical and sports activities, adapted to the development, characteristics and needs of individuals and the typology of the activity, space and entity in any type of organization, population, context and in any sector of professional intervention of physical activity and sport and with emphasis on special populations and guaranteeing safety, efficiency and professionalism in the activity carried out in compliance with current regulations.
- Identify, organize, direct, plan, coordinate, implement, and carry out technical-scientific evaluation of the various types of physical and sports activities adapted to the development, characteristics and needs of individuals and the typology of the activity, space and entity, in all types of physical activity and sport services, including sporting events, and in any type of organization, population, context, environment and population and with emphasis on special populations such as: older people (senior citizens), schoolchildren, people with disabilities and people with pathologies, health problems or similar (diagnosed and/or prescribed by a doctor) and in any sector of professional intervention in physical activity and sport (formal and informal physical-sports teaching; physical and sports training; physical exercise for health; direction of physical activity and sports) guaranteeing safety, efficiency and professionalism in the activity carried out in compliance with current regulations.
- Know how to readapt, retrain and/or reeducate people, groups or teams with injuries and pathologies (diagnosed and/or prescribed by a doctor), whether they compete or not, through physical-sports activities and physical exercises appropriate to their characteristics and needs.
- Know, prepare and know how to apply the ethical-deontological, structural-organizational conditions, professional performance and the regulations of professional practice of Graduates in Physical Activity and Sports Sciences, in any professional sector of physical activity and sport (teaching formal and informal physical-sports; physical and sports training; physical exercise for health; as well as being able to develop multidisciplinary work
- Respect and put into practice the ethical principles and action proposals derived from the objectives for sustainable development, transferring them to all academic and professional activities.
- Understand, develop and know how to apply the procedures, strategies, activities, resources, techniques and methods that intervene in the teaching-learning process efficiently, developing the entire course of action in all sectors of professional intervention of physical activity and sport (formal and informal physical-sports teaching; physical and sports training; physical exercise for health; direction of physical activity and sports).

Type of AR: Competencias

- Know and know how to apply ethical and deontological principles and social justice in professional performance and involvement, as well as have habits of scientific and professional rigor and a constant attitude of service to citizens in the exercise of their professional practice with which improvement, excellence, quality and efficiency are intended.

- Articulate and display an advanced level of skill in the analysis, design and evaluation of assessment and control tests of physical condition and physical-sports performance.
- Fluently develop procedures and protocols to solve unstructured, unpredictable and increasingly complex problems, articulating and displaying a mastery of the elements, methods, procedures, activities, resources, techniques and processes of physical condition and physical exercise in a manner adequate, efficient, systematic, varied and methodologically integrated for the entire population and with emphasis on special populations such as: older people (seniors), schoolchildren, people with disabilities and people with pathologies, health problems or assimilated (diagnosed and/or prescribed by a doctor), taking into account gender and diversity and in any sector of professional intervention of physical activity and sport.
- Fluently develop procedures and protocols to solve unstructured, unpredictable and increasingly complex problems, articulating and displaying mastery of the elements, methods, processes, activities, resources and techniques that make up basic motor skills, physical activities, sports skills, play, expressive bodily and dance activities, and activities in nature in an appropriate, efficient, systematic, varied and methodologically integrated way for the entire population and with emphasis on special populations such as: older people (seniors), schoolchildren, people with disabilities and people with pathologies, health problems or similar (diagnosed and/or prescribed by a doctor), taking into account gender and diversity and in any sector of professional intervention of physical activity and sport (formal and informal physical education -sports; physical and sports training; physical exercise for health; direction of physical activity and sports).

R11 - Diagnose the situation of a sports organization and the context.

- Know and know how to apply ethical and deontological principles and social justice in professional performance and involvement, as well as have habits of scientific and professional rigor and a constant attitude of service to citizens in the exercise of their professional practice with which improvement, excellence, quality and efficiency are intended.
- Articulate and display an advanced level of skill in the analysis, design and evaluation of assessment and control tests of physical condition and physical-sports performance.
- Fluently develop procedures and protocols to solve unstructured, unpredictable and increasingly complex problems, articulating and displaying a mastery of the elements, methods, procedures, activities, resources, techniques and processes of physical condition and physical exercise in a manner adequate, efficient, systematic, varied and methodologically integrated for the entire population and with emphasis on special populations such as: older people (seniors), schoolchildren, people with disabilities and people with pathologies, health problems or assimilated (diagnosed and/or prescribed by a doctor), taking into account gender and diversity and in any sector of professional intervention of physical activity and sport.
- Fluently develop procedures and protocols to solve unstructured, unpredictable and increasingly complex problems, articulating and displaying mastery of the elements, methods, processes, activities, resources and techniques that make up basic motor skills, physical activities, sports skills, play, expressive bodily and dance activities, and activities in nature in an appropriate, efficient, systematic, varied and methodologically integrated way for the entire population and with emphasis on special populations such as: older people (seniors), schoolchildren, people with disabilities and people with pathologies, health problems or similar (diagnosed and/or prescribed by a doctor), taking into account gender and diversity and in any sector of professional intervention of physical activity and sport (formal and informal physical education -sports; physical and sports training; physical exercise for health; direction of physical activity and sports).

R6 - Design, develop, evaluate, adapt and apply the processes of planning and programming of physical-sport activities in the different contexts (educational, training, health and management) formal and non-formal, attending to diversity, from a multidisciplinary perspective.

Learning outcomes of the specified title

Type of AR: Habilidades o Destrezas

- Adapt the educational intervention to the individual characteristics and needs for the entire population and with emphasis on special populations such as: schoolchildren, older people (seniors), people with reduced mobility and people with pathologies, health problems or assimilated (diagnosed and/or prescribed by a doctor), taking into account gender and diversity.
- Apply the principles derived from the concept of integral ecology in your proposals or actions, whatever the scope and area of knowledge and the contexts in which they are proposed.
- Articulate and deploy procedures, processes, protocols, own analysis, with rigor and scientific attitude on matters of a social, legal, economic, scientific or ethical nature, when necessary and relevant in any professional sector of physical activity and sport (formal education and informal physical-sports; physical and sports training; physical exercise for health; direction of physical activity and sport).
- Deploy an advanced level in the planning, application, control and evaluation of physical and sports training processes.
- Design and apply fluidly, naturally, consciously and continuously adequate, efficient, systematic, varied physical exercise and physical condition, based on scientific evidence, for the development of adaptation and improvement or readaptation processes of certain abilities of each person in relation to human movement and its optimization; in order to be able to solve poorly structured, increasingly complex and unpredictable problems and with emphasis on special populations.
- Design and apply the methodological process integrated by observation, reflection, analysis, diagnosis, execution, technical-scientific evaluation and/or dissemination in different contexts and in all sectors of professional intervention in physical activity and sports.
- Develop theoretical-practical responses based on the sincere search for the full truth and the integration of all dimensions of the human being when faced with the great questions of life.

- Identify, organize, direct, plan, coordinate, implement and carry out technical-scientific evaluation of organizational resources and material resources and sports facilities, including their basic and functional design as well as adequate selection and use, for each type of activity, with the purpose of achieving safe, efficient and healthy physical and sports activities, adapted to the development, characteristics and needs of individuals and the typology of the activity, space and entity in any type of organization, population, context and in any sector of professional intervention of physical activity and sport and with emphasis on special populations and guaranteeing safety, efficiency and professionalism in the activity carried out in compliance with current regulations.
- Identify, organize, direct, plan, coordinate, implement, and carry out technical-scientific evaluation of the various types of physical and sports activities adapted to the development, characteristics and needs of individuals and the typology of the activity, space and entity, in all types of physical activity and sport services, including sporting events, and in any type of organization, population, context, environment and population and with emphasis on special populations such as: older people (senior citizens), schoolchildren, people with disabilities and people with pathologies, health problems or similar (diagnosed and/or prescribed by a doctor) and in any sector of professional intervention in physical activity and sport (formal and informal physical-sports teaching; physical and sports training; physical exercise for health; direction of physical activity and sports) guaranteeing safety, efficiency and professionalism in the activity carried out in compliance with current regulations.
- Know how to readapt, retrain and/or reeducate people, groups or teams with injuries and pathologies (diagnosed and/or prescribed by a doctor), whether they compete or not, through physical-sports activities and physical exercises appropriate to their characteristics and needs.
- Know, prepare and know how to apply the ethical-deontological, structural-organizational conditions, professional performance and the regulations of professional practice of Graduates in Physical Activity and Sports Sciences, in any professional sector of physical activity and sport (teaching formal and informal physical-sports; physical and sports training; physical exercise for health; as well as being able to develop multidisciplinary work
- Respect and put into practice the ethical principles and action proposals derived from the objectives for sustainable development, transferring them to all academic and professional activities.
- Understand, develop and know how to apply the procedures, strategies, activities, resources, techniques and methods that intervene in the teaching-learning process efficiently, developing the entire course of action in all sectors of professional intervention of physical activity and sport (formal and informal physical-sports teaching; physical and sports training; physical exercise for health; direction of physical activity and sports).

Type of AR: Competencias

- Know and know how to apply ethical and deontological principles and social justice in professional performance and involvement, as well as have habits of scientific and professional rigor and a constant attitude of service to citizens in the exercise of their professional practice with which improvement, excellence, quality and efficiency are intended.

- Articulate and display an advanced level of skill in the analysis, design and evaluation of assessment and control tests of physical condition and physical-sports performance.
- Fluently develop procedures and protocols to solve unstructured, unpredictable and increasingly complex problems, articulating and displaying a mastery of the elements, methods, procedures, activities, resources, techniques and processes of physical condition and physical exercise in a manner adequate, efficient, systematic, varied and methodologically integrated for the entire population and with emphasis on special populations such as: older people (seniors), schoolchildren, people with disabilities and people with pathologies, health problems or assimilated (diagnosed and/or prescribed by a doctor), taking into account gender and diversity and in any sector of professional intervention of physical activity and sport.
- Fluently develop procedures and protocols to solve unstructured, unpredictable and increasingly complex problems, articulating and displaying mastery of the elements, methods, processes, activities, resources and techniques that make up basic motor skills, physical activities, sports skills, play, expressive bodily and dance activities, and activities in nature in an appropriate, efficient, systematic, varied and methodologically integrated way for the entire population and with emphasis on special populations such as: older people (seniors), schoolchildren, people with disabilities and people with pathologies, health problems or similar (diagnosed and/or prescribed by a doctor), taking into account gender and diversity and in any sector of professional intervention of physical activity and sport (formal and informal physical education -sports; physical and sports training; physical exercise for health; direction of physical activity and sports).

R7 - Organize, plan, carry out and evaluate physical-sports activities in which people with disabilities and / or different pathologies participate in all areas of physical activity sciences, as well as cooperate with other agents involved.

Learning outcomes of the specified title

Type of AR: Habilidades o Destrezas

- Adapt the educational intervention to the individual characteristics and needs for the entire population and with emphasis on special populations such as: schoolchildren, older people (seniors), people with reduced mobility and people with pathologies, health problems or assimilated (diagnosed and/or prescribed by a doctor), taking into account gender and diversity.
- Apply the principles derived from the concept of integral ecology in your proposals or actions, whatever the scope and area of knowledge and the contexts in which they are proposed.

- Articulate and deploy procedures, processes, protocols, own analysis, with rigor and scientific attitude on matters of a social, legal, economic, scientific or ethical nature, when necessary and relevant in any professional sector of physical activity and sport (formal education and informal physical-sports; physical and sports training; physical exercise for health; direction of physical activity and sport).
- Deploy an advanced level in the planning, application, control and evaluation of physical and sports training processes.
- Design and apply fluidly, naturally, consciously and continuously adequate, efficient, systematic, varied physical exercise and physical condition, based on scientific evidence, for the development of adaptation and improvement or readaptation processes of certain abilities of each person in relation to human movement and its optimization; in order to be able to solve poorly structured, increasingly complex and unpredictable problems and with emphasis on special populations.
- Design and apply the methodological process integrated by observation, reflection, analysis, diagnosis, execution, technical-scientific evaluation and/or dissemination in different contexts and in all sectors of professional intervention in physical activity and sports.
- Develop theoretical-practical responses based on the sincere search for the full truth and the integration of all dimensions of the human being when faced with the great questions of life.
- Identify, organize, direct, plan, coordinate, implement and carry out technical-scientific evaluation of organizational resources and material resources and sports facilities, including their basic and functional design as well as adequate selection and use, for each type of activity, with the purpose of achieving safe, efficient and healthy physical and sports activities, adapted to the development, characteristics and needs of individuals and the typology of the activity, space and entity in any type of organization, population, context and in any sector of professional intervention of physical activity and sport and with emphasis on special populations and guaranteeing safety, efficiency and professionalism in the activity carried out in compliance with current regulations.
- Identify, organize, direct, plan, coordinate, implement, and carry out technical-scientific evaluation of the various types of physical and sports activities adapted to the development, characteristics and needs of individuals and the typology of the activity, space and entity, in all types of physical activity and sport services, including sporting events, and in any type of organization, population, context, environment and population and with emphasis on special populations such as: older people (senior citizens), schoolchildren, people with disabilities and people with pathologies, health problems or similar (diagnosed and/or prescribed by a doctor) and in any sector of professional intervention in physical activity and sport (formal and informal physical-sports teaching; physical and sports training; physical exercise for health; direction of physical activity and sports) guaranteeing safety, efficiency and professionalism in the activity carried out in compliance with current regulations.
- Know how to readapt, retrain and/or reeducate people, groups or teams with injuries and pathologies (diagnosed and/or prescribed by a doctor), whether they compete or not, through physical-sports activities and physical exercises appropriate to their characteristics and needs.

- Know, prepare and know how to apply the ethical-deontological, structural-organizational conditions, professional performance and the regulations of professional practice of Graduates in Physical Activity and Sports Sciences, in any professional sector of physical activity and sport (teaching formal and informal physical-sports; physical and sports training; physical exercise for health; as well as being able to develop multidisciplinary work
- Respect and put into practice the ethical principles and action proposals derived from the objectives for sustainable development, transferring them to all academic and professional activities.
- Understand, develop and know how to apply the procedures, strategies, activities, resources, techniques and methods that intervene in the teaching-learning process efficiently, developing the entire course of action in all sectors of professional intervention of physical activity and sport (formal and informal physical-sports teaching; physical and sports training; physical exercise for health; direction of physical activity and sports).

Type of AR: Competencias

- Know and know how to apply ethical and deontological principles and social justice in professional performance and involvement, as well as have habits of scientific and professional rigor and a constant attitude of service to citizens in the exercise of their professional practice with which improvement, excellence, quality and efficiency are intended.
- Articulate and display an advanced level of skill in the analysis, design and evaluation of assessment and control tests of physical condition and physical-sports performance.
- Fluently develop procedures and protocols to solve unstructured, unpredictable and increasingly complex problems, articulating and displaying a mastery of the elements, methods, procedures, activities, resources, techniques and processes of physical condition and physical exercise in a manner adequate, efficient, systematic, varied and methodologically integrated for the entire population and with emphasis on special populations such as: older people (seniors), schoolchildren, people with disabilities and people with pathologies, health problems or assimilated (diagnosed and/or prescribed by a doctor), taking into account gender and diversity and in any sector of professional intervention of physical activity and sport.
- Fluently develop procedures and protocols to solve unstructured, unpredictable and increasingly complex problems, articulating and displaying mastery of the elements, methods, processes, activities, resources and techniques that make up basic motor skills, physical activities, sports skills, play, expressive bodily and dance activities, and activities in nature in an appropriate, efficient, systematic, varied and methodologically integrated way for the entire population and with emphasis on special populations such as: older people (seniors), schoolchildren, people with disabilities and people with pathologies, health problems or similar (diagnosed and/or prescribed by a doctor), taking into account gender and diversity and in any sector of professional intervention of physical activity and sport (formal and informal physical education -sports; physical and sports training; physical exercise for health; direction of physical activity and sports).

R8 - Support students in their diversity in the recognition of their rights, promoting physical-sports activities as a tool for educational inclusion and personal fulfillment.

Learning outcomes of the specified title

Type of AR: Habilidades o Destrezas

- Adapt the educational intervention to the individual characteristics and needs for the entire population and with emphasis on special populations such as: schoolchildren, older people (seniors), people with reduced mobility and people with pathologies, health problems or assimilated (diagnosed and/or prescribed by a doctor), taking into account gender and diversity.
- Apply the principles derived from the concept of integral ecology in your proposals or actions, whatever the scope and area of knowledge and the contexts in which they are proposed.
- Articulate and deploy procedures, processes, protocols, own analysis, with rigor and scientific attitude on matters of a social, legal, economic, scientific or ethical nature, when necessary and relevant in any professional sector of physical activity and sport (formal education and informal physical-sports; physical and sports training; physical exercise for health; direction of physical activity and sport).

Assessment system

Modalidad presencial

Assessed learning outcomes	Granted percentage	Assessment tool
R9	10,00%	Written and/or practical tests.
R8, R12, R13	10,00%	Self appraisal.
R6, R7, R8, R9, R10, R11	30,00%	Final internship report.
R7, R8, R12, R13	50,00%	Report and assessment of the External tutor.

Observations

The student may keep the assessment instruments passed during the 3 years following the first enrolment. It is necessary to obtain 50% in the self-assessment, in the final internship report, and in the external tutor's report and assessment in order to pass the subject. According to article 4.2. of the UCV Evaluation Guidelines, the limit of absences that may be due to eventualities (medical consultation, bureaucratic procedures...) that do not have to be justified, is 30%. If any of these criteria is not met, the student will be graded with a maximum of 4.5. In the written test, the penalty system will be as follows: *Standard penalty system

No options = no subtraction

2 choices = 1 wrong subtract 100%.

3 options = 1 wrong subtract 50%.

4 options = 1 wrong subtracts 33.3%.

5 options = 1 wrong subtract 25% 6 options = 1 wrong subtract 20% *Standard penalty system
6 options = 1 wrong subtracts 20%.

The detailed explanation (procedure of the tasks) as well as the assessment instruments (cards or rubrics) of each section will be published on the platform of each group at the disposal of the student.

Actividades formativas

The methodologies to be used so that the students reach the expected learning outcomes will be the following:

- M1 Attendance at practices.
- M2 Resolution of problems and cases.
- M5 Presentation of content by the teacher.
- M7 Group dynamics and activities.

IN-CLASS TRAINING ACTIVITIES

ACTIVITY	RELATIONSHIP WITH THE COURSE LEARNING OUTCOMES	METHODOLOGY	HOURS	ECTS
THEORETICAL CLASS: Presentation of contents by the teacher. Competency analysis. Demonstration of capabilities, skills and knowledge in the classroom.	R6, R7, R8, R9, R10, R11, R12, R13	Presentation of content by the teacher.	6,00	0,24
EVALUATION: Set of oral and/or written tests used in the evaluation of the student, including the oral presentation of the final degree project.	R6, R7, R8, R9, R10, R11, R12, R13	Resolution of problems and cases.	2,00	0,08

<p>PRACTICAL ASSISTANCE: The practices will be supervised by a tutor belonging to the entity where they are carried out. In addition, there will be a supervisor of the process internship belonging to the university.</p>	<p>R6, R7, R8, R9, R10, R11, R12, R13</p>	<p>Attendance at practices.</p>	<p>207,00</p>	<p>8,28</p>
--	---	---------------------------------	---------------	-------------

<p>TUTORING: Supervision of learning, evolution. Discussion in small groups. Resolution of problems and cases. Presentation of results before the teacher. Presentation of diagrams and indexes of the proposed works.</p>	<p>R6, R7, R8, R9, R10, R11, R12, R13</p>	<p>Resolution of problems and cases. Group dynamics and activities.</p>	<p>5,00</p>	<p>0,20</p>
---	---	---	-------------	-------------

TOTAL	220,00	8,80
--------------	---------------	-------------

TRAINING ACTIVITIES OF AUTONOMOUS WORK

ACTIVITY	RELATIONSHIP WITH THE COURSE LEARNING OUTCOMES	METHODOLOGY	HOURS	ECTS
<p>SELF-EMPLOYED WORK: Study, Individual preparation of exercises, assignments, reports, to present or deliver in classes and/or in tutoring. Activities in platform or other virtual spaces.</p>	<p>R6, R7, R8, R9, R10, R11, R12, R13</p>	<p>Resolution of problems and cases.</p>	<p>5,00</p>	<p>0,20</p>

TOTAL	5,00	0,20
--------------	-------------	-------------

Description of contents

Descripción de contenidos necesarios para la adquisición de los resultados de aprendizaje.

Theoretical content:

Block of content	Contents
I	GENERAL AND SPECIFIC REGULATIONS FOR EXTERNAL PLACEMENTS
II	STAGES OF THE PRACTICUM II PROCESS AND EXTRACURRICULAR PLACEMENTS
III	PRACTICUM MANAGEMENT PROCESSES II. DOCUMENTS AND MEMORY
IV	DOCUMENTS AND PROTOCOLS FOR PROFESSIONAL PRACTICE

Temporary organization of learning:

Block of content	Sessions	Hours
I	1	2,00
II	1	2,00
III	1	2,00
IV	1	2,00
