Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2, R3	40,00%	Analysis and resolution of case studies.
R1, R2, R3	40,00%	Attendance and participation in class.
R1, R2, R3	20,00%	Exam or objective test to measure obtained competences.

Observations

CRITERIA FOR GRANTING HONORS ENROLLMENT

The "Honors Enrollment" distinction may be awarded by the professor responsible for the course to students who have obtained the "Outstanding" grade. The number of "Honors Enrollment" distinctions that can be awarded cannot exceed five percent of the students included in the same official record, unless this is less than 20, in which case only one "Honors Enrollment" can be granted.

OTHER RELEVANT ASPECTS OF THE EVALUATION

It will be necessary to obtain at least a 5 on the exam in order to apply the percentages obtained from the practical part grades, as well as the grade obtained for attendance and participation in class

According to Article 9 of the General Regulations for Evaluation and Grading of Official Teachings and UCV's Own Degrees, the continuous evaluation system is the preferred evaluation system at UCV.

Article 10, however, allows for students who can justify and prove their inability to attend in-person classes (or synchronous communication activities for virtual and/or hybrid teaching modes) to be evaluated through an extraordinary method called unique evaluation. This unique evaluation **must be requested within the first month of each semester to the Faculty Dean's Office** through the Vice Deans or Master's Directors, who have the authority to make the final decision on admitting the student's request.

For the course "Psychology of Testimony" the evidence to be presented and/or tests to be taken in the unique evaluation by the student will be established as follows: 80% for the submission of tasks assigned by the professor and 20% for a final objective test. The evaluation criteria will be the same as those established for the continuous evaluation system.

CLASS ATTENDANCE IN FACE-TO-FACE DEGREES

In accordance with the development guidelines of the General Regulations for the Evaluation and Qualification of Official Teachings and Own Degrees of the UCV, in face-to-face degrees, class attendance with a minimum of 80% of the sessions of each subject will be required as a requirement to be evaluated. This means that, if a student does not attend the sessions of each subject, in a percentage greater than 20%, he/she will not be able to be evaluated, neither in the first nor in the second call, unless the person responsible for the subject, with the approval of the person responsible for degree, in view of duly justified exceptional circumstances, exempt from the minimum attendance percentage. The same criterion will be applicable for hybrid or virtual degrees in which teachers must maintain the same percentage in the requirement of "presence" in the different training activities, if any, even if these are carried out in virtual environments.

MENTION OF DISTINCTION:

The mention of "Honors" may be awarded to students who have obtained a grade equal to or greater than 9.0. Their number may not exceed five percent of the students enrolled in a group in the corresponding academic year, unless the number of students enrolled is lower.

Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

- M1 Presentation of contents by the teacher, analysis of competencies, explanation and demonstration of abilities, skills and knowledge in the classroom.
- M2 Specific instructions about group and individual assignments for each topic.
- M3 Group work sessions supervised by the teacher. Study of legal cases, both real and fictitious, analysis, diagnosis, problems, field study, computer room, visits, data search, libraries, network, Internet, etc. Significant construction of knowledge through student interaction and activity. Critical analysis on values and social commitment.
- M4 Application of interdisciplinary knowledge.
- M5 Supervised monographic sessions with shared participation
- M6 Personalized attention and in small groups. Period of instruction and/or orientation carried out by a tutor with the objective of reviewing and discussing the materials and topics presented in the classes, seminars, readings, completion of assignments, etc.

- M7 Set of oral and/or written tests used in the initial, formative or summative evaluation of the student.
- M8 Group preparation of readings, assumptions and problem -olving to present, discuss or deliver in class or tutorial.
- M9 Student's study: Individual reading preparation, case studies, jurisprudence. Writings and papers to be presented or delivered in the classes or tutorials.
