Tax Law

Subject Matter	ECTS	Subject	ECTS	Year/semester
Tax Law	18,00	Tax Law I	6,00	2/1
		Tax Law II	6,00	2/2
		Tax Law III	6,00	3/1

Recommended knowledge

To follow a Tax Law course it is recommended to have previously studied Constitutional and Administrative Law I, Civil Law and Commercial Law I and, although it is not an essential requirement, to have completed or passed all the mentioned subjects.

Learning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

- R1 To know the autonomy of Financial and Tax Law with respect to other legal disciplines.
- R2 To know the definition of Financial and Tax Law and its delimitation. This, from a theoretical point of view and paying attention to its practical aspect, particularly with regard to its interrelationship with other legal disciplines.
- R3 To know how to identify which regulations are part of Financial and Tax Law and to acquire the necessary skills to complement those regulations with those of other branches of law, in particular with Administrative Law.
- R4 To know the historical formation of the Rule of Law and its current configuration. The student must know how to identify the implications of this in the Constitution and in the legal norms, in relation to the principles of constitutional character that directly affect the Financial and Tax Law.
- R5 To know the implications of the principle of economic capacity, of legal reserve, of equality, of progressiveness and non-confiscatory nature, and of efficiency and economy in public spending.
- R6 To know how to work with the databases where the legal rules are collected.
- R7 To know how to interpret the different legal rules.
- R8 To know the regulatory system as a whole and to identify the Financial and Tax Law within the umbrella group constituted by the Constitutional Law and the Administrative Law.
- R9 To know the role of the Constitution in the normative framework and its role as the supreme legal norm.
- R10 To be able to handle the constitutional principles affecting the field of Financial and Tax Law with confidence. These principles, which are derived from the jurisprudence of the Constitutional Court, are an essential working tool.
- R11 To know how to recognize a Decree-Law and the Legislative Decree, and to know how to interpret their limits.
- R12 To know the historical formation of the regulatory power, as an important part within the Financial and Tax Law.

- R13 To know the cases in which Community Law can be applied to national law.
- R14 To be able to identify public-legal persons in relation to private-legal persons, in order to delimit the existence of tax categories that are difficult to fit into in practice .
- R15 The student must know the situation of the taxpayers in their relationship with the tax administration. Their rights and guarantees.

Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2, R3, R4, R5, R6, R7, R8, R9, R10, R11, R12, R13, R14, R15	40,00%	Practical tests
R1, R2, R3, R4, R5, R6, R7, R8, R9, R10, R11, R12, R13, R14, R15	20,00%	Attendance, active participation and favourable attitude in the subject/ course/ module
R1, R2, R3, R4, R5, R6, R7, R8, R9, R10, R11, R12, R13, R14, R15	40,00%	Written theoretical tests

Observations

- It will be mandatory to pass the theory test with a minimum grade of 5 out of 10 to surpass the subject.
- On the second round of testing, will considered the practical tests, as well as the attendance and the active participation.
- The justified absence to the class sessions, the teacher must be documented within 8 calendar days following the absence: if this is not done, the student will be considered as missing.
- Errors detected by the student in relation to attendance in the Virtual Classroom lists must be made known to the teacher within the following 8 natural days.
- The time they have available to review the activities of continuous evaluation is 8 natural days after the teacher says his notes, without having to do so extemporaneously after the final exam has been taken.
- Class Attendance will count at 5% and active student participation at 15%.
- To pass the subject it is necessary to pass the global theoretical test with a minimum grade of 5 out of 10 to which the marks obtained in the rest of the assessment instruments will be added; otherwise, the mark obtained in the assessment instruments other than the exam (max. 30%) may be kept waiting to pass the written test. In no case will notes from one course to another be saved.

According to article 9 of the General Regulations for the Evaluation and Qualification of Official Teachings and Own Degrees of the UCV, the continuous evaluation system is the preferred evaluation system at the UCV. The art. 10 allows, however, for those students who, in a justified and accredited manner, express their inability to attend in person (or to synchronous communication activities for virtual and/or hybrid teaching modalities), their evaluation on an extraordinary basis in the so-called single evaluation. Said single evaluation must be requested within the first month of each semester to the Dean of

Faculty through the Vice-Deaneries or Master's Directorates, with the express decision on the admission of said request from the student concerned being the responsibility of the latter.

The evidence to be presented and/or the test/s to be carried out in the single evaluation by the student will be the same as for the rest of the students, although the percentages awarded to the different evaluation instruments will be the following: 50% practical tests and 50% theoretical written tests.

CLASS ATTENDANCE IN FACE-TO-FACE DEGREES

In accordance with the development guidelines of the General Regulations for the Evaluation and Qualification of Official Teachings and Own Degrees of the UCV, in face-to-face degrees, class attendance with a minimum of 80% of the sessions of each subject will be required as a requirement to be evaluated. This means that, if a student does not attend the sessions of each subject, in a percentage greater than 20%, he/she will not be able to be evaluated, neither in the first nor in the second call, unless the person responsible for the subject, with the approval of the person responsible for degree, in view of duly justified exceptional circumstances, exempt from the minimum attendance percentage. The same criterion will be applicable for hybrid or virtual degrees in which teachers must maintain the same percentage in the requirement of "presence" in the different training activities, if any, even if these are carried out in virtual environments.

MENTION OF DISTINCTION:

The mention of "Honors" may be awarded to students who have obtained a grade equal to or greater than 9.0. Their number may not exceed five percent of the students enrolled in a group in the corresponding academic year, unless the number of students enrolled is lower.

Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

- M1 Group work sessions supervised by the teacher. Study of legal cases, both true and fictitious. Significant construction of knowledge through student interaction and activity. Critical analysis of values and social commitment.
- M8 Exposition of contents by the teacher, analysis of competences, explanation and demonstration of capacities, skills and knowledge in the classroom.
- M11 Personalised attention and in small groups. Period of instruction and/or orientation carried out by a tutor with the aim of reviewing and discussing the materials and topics presented in the classes, seminars, readings, completion of assignments, etc.

- M12 Set of written and/or oral tests used in the initial, formative or summative evaluation of the student.
- M13 Group preparation of readings, essays, resolution of problems, seminars, papers, dossiers, etc., to be presented or delivered in theory classes, practical classes, and/or small group tutorials.
- M14 Student's study: individual preparation of readings, essays, problem-solving, seminars, works, reports, etc. to present or deliver in the theoretical classes, practical classes and/or small group tutorials.
