R3, R4, R5	15,00%	Attendance and active participation in seminars, tutored interviews and practical activities

Observations

The final group work will be the practical case of the judge and will be 20% of the grade. The rest of the activities will be worth 15%, corresponding to "attendance and active participation in seminars, tutored interviews and practical activities" The activities delivered after the deadline may obtain a maximum score of 5. For the second call, what is not delivered in the first call may be delivered, but only a 5 may be obtained.

One-time Evaluation:

According to Article 9 of the General Regulations on Evaluation and Grading of Official and Own Degrees of the UCV, the continuous evaluation system is the preferred method of evaluation at UCV. However, Article 10 allows for an extraordinary evaluation, known as the single evaluation, for those students who, in a justified and accredited manner, demonstrate their inability to attend in-person sessions (or synchronous communication activities for virtual and/or hybrid teaching modalities).

This single evaluation must be requested within the first month of each semester through the Vice-Dean's Offices or Master's Program Directions, with the final decision on the admission of the student's request resting with the Faculty Dean's Office.

The evidence to be presented and/or the tests to be carried out in the single evaluation by the student will consist of practical tests, including one or several adapted practical tests, either oral (simulation, video, etc.) or written, conducted inside or outside the classroom, which allow the same learning outcomes to be accredited as the regular evaluation activities. The percentages assigned to the different evaluation instruments will be as follows: 50% practical tests and 50% theoretical tests.

CLASS ATTENDANCE IN FACE-TO-FACE DEGREES

In accordance with the development guidelines of the General Regulations for the Evaluation and Qualification of Official Teachings and Own Degrees of the UCV, in face-to-face degrees, class attendance with a minimum of 80% of the sessions of each subject will be required as a requirement to be evaluated. This means that, if a student does not attend the sessions of each subject, in a percentage greater than 20%, he/she will not be able to be evaluated, neither in the first nor in the second call, unless the person responsible for the subject, with the approval of the person responsible for degree, in view of duly justified exceptional circumstances, exempt from the minimum attendance percentage. The same criterion will be applicable for hybrid or virtual degrees in which teachers must maintain the same percentage in the requirement of "presence" in the different training activities, if any, even if these are carried out in virtual environments.

MENTION OF DISTINCTION:

The mention of "Honors" may be awarded to students who have obtained a grade equal to or greater than 9.0. Their number may not exceed five percent of the students enrolled in a group in the corresponding academic year, unless the number of students enrolled is lower.
