Observations

The mention of Distinction will be awarded to students who have achieved a score equal to or greater than 9.5.

Note 1. If there is no such communication it's understood he/she accepts the evaluation criteria established by the Department for the on-campus modality and subsequent amendments will not be accepted unless good cause.

Note 2. In order to sum up percentages is essential to pass, in both modalities, each and every one of the assessment tools. Failure to follow the rules and deadlines for the completion of academic activities invalidate the note

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with Distinction) may be awarded.

Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.
