## Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes	Granted percentage	Assessment method
	40,00%	Written test: Final summative or continuous theoretical and practical test (open questions, objective test questions, truncated exam, etc.). Preparation of fieldwork memorandums. Solution of case studies, single case, etc.
	10,00%	Individual monitoring of attendance at face-to-face sessions and active participation in theoretical and practical classes, seminars and tutorials.
	40,00%	Non-final written exams: individual or group directed work.
	10,00%	Summative final or continuous oral exam

### Observations

The **Final exam** will be a multiple choice or short question test. The final exam will also include a sentence transformation exercise and a word formation exercise between 8 and 12 items each. Students will not lose points for wrong answers.

For the **formative assessment tasks** to be taken into account, they must be submitted on the dates specified by the course professor. Assignments that are submitted late without justification will be taken into account only for the second exam call. It is necessary to achieve a passing grade of 5/10 in both the formative and summative assessment tasks in order to pass the course. In the case that only one of these assessment types is passed, the student will fail the first exam call. However, the mark for the assessment type that has been passed (either formative or summative assessment) will be kept for the second exam call.

**A student who is unable to attend** any of the classes will be allowed to take a single summative assessment that is worth 100% of the final grade for the subject. In order to qualify for this assessment, the student must ask for authorisation from the course professor and supply any relevant documentation within four weeks from the date when the course begins.

## CRITERIA FOR THE AWARDING OF HONOURS:

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with 9 Distinction) may be awarded. Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.
