Assessed learning outcomes	Granted percentage	Assessment method
R1, R2, R3	50,00%	Written test: Final summative or continuous theoretical and practical test (open questions, objective test questions, truncated exam, etc.). Preparation of fieldwork memorandums. Solution of case studies, single case, etc.
R1, R2, R3	20,00%	Oral presentation of group and individual work.
R1, R2, R3	15,00%	Individual monitoring of attendance at face-to-face sessions and active participation in theoretical and practical classes, seminars and tutorials.

Observations

EVALUATION TOOLS:

- Preparation of a session portfolio (20%)
- Preparation and presentation of a learning experience (20%)
- Active participation and submission of classroom work (10%)
- Application of a child development assessment tool, practical case (10%)
- Final theoretical exam (40%)

The evaluation includes several well-differentiated instruments. The final grade will be the weighted average of the results obtained in each of them, as long as all have passed with a grade of at least 5. All works will have execution and due dates. All oral and written production of students will be evaluated at the formal level according to the document "Level C1 (Common European Framework of Reference for Languages) in the Teaching Degrees in Early Childhood and Primary Education".
Criteria for granting a grade of A with honors: The grade can be granted to those students who have attained a grade of 9,5 (1 per 20 students). In case of two identical marks, it will be taken into consideration the results in the other assessment tools in order of percentage.

Single evaluation: Exceptionally, those students who, due to justified and proven circumstances, cannot follow the continuous evaluation system and request it within the first month of each semester to their professor, might be eligible for this evaluation system. In this case, the evaluation will be as follows:- 60%. Solution of practical cases: Execution tests of real and/or simulated tasks

and oral presentation of group and individual work (oral, written, individual, group). Oral tests (individual, group, presentation of topics-works). - 40%. Written tests: short-answer objective tests, developmental.

CRITERIA FOR THE AWARDING OF HONOURS:

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with 9 Distinction) may be awarded. Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.
