## Assessment system for the acquisition of competencies and grading system

### In-class teaching

Assessed learning outcomes	Granted percentage	Assessment method
R3, R4, R5	5,00%	Oral presentation of group and individual works: Self-assessment systems (oral, written, individual, in groups). Oral tests (individual, in groups, presentation of topics or works).
R2, R3, R4, R5	10,00%	Active participation in theoretical-practical sessions, seminars, and tutorials: Attitude scale (to gather opinions, values, social and managerial skills, interaction behaviors).
R2, R3, R4, R5	40,00%	Written tests: Objective tests with short and extended responses.
R2, R3, R4, R5	45,00%	Projects. Development and/or design works.

### Observations

There will be a series of compulsory readings that each professor will detail at the beginning of the classes. These readings will be evaluated both in the works and projects and in the written tests. All individual and group works start by reading and analyzing works of fiction, specialized books and articles and specialized sources to promote different requirements of the curriculum of the Generalitat Valenciana.

All the works will have a concrete execution and delivery date, which must be respected to pass the subject.

Those works that are based on the simple copy, the uncritical textual summary will be penalized. Plagiarism or the use of illegal means will cause the student to fail.

These consist of, but are not limited to:

-Reading, research and reflection on literary texts with the help of academic bibliography and/or through field work.

-Preparation of didactic proposals to promote reading and literary competence based on the analysis of the readings developed in the previous tasks.

The final written test includes short questions (between 30 and 40% of the total exam. Every three wrong questions eliminates one right) and long questions. The exam grade will be the sum of both parts, that is, they are not eliminatory.

• It is necessary to pass the final written test with a grade equal to or greater than 5/10, as well as to obtain an overall average of 5/10 or greater in the set of assessment instruments to obtain a pass

grade for the subject.

- Since the teacher must be a professional of the word and for this reason the order ECI 3857/2007 of December 27 establishes the achievement of a C1 level for the students of this grade, in the subject a correct written expression must be evidenced through written tests, and this will be a necessary condition for its passing. Specifically, it is a condition for passing the subject not to make more than five spelling mistakes. Each one of the faults, without exceeding the allowed limit, will entail a penalty of -0.25 points (out of 10) of the final grade of the test. Repetitions of the same error or punctuation marks (except the comma between subject and predicate) will not be considered.

Likewise, considering the aforementioned level of language and the descriptors established in it, the subject will contribute to demonstrating competences such as the following:

- To write clear and well-structured expositions on complex topics, highlighting the main ideas.

Expand at some length and defend points of view with supporting ideas, reasons and appropriate examples.

- To comprehend with relative ease most of the lectures, discussions and debates.

- To take detailed notes during a conference that deals with topics of your specialty, transcribing the information so accurately and close to the original, that the notes could also be useful to other people.

- To comprehend in full detail a wide range of large and complex texts that you are likely to encounter in social, professional or academic life, and identifies subtle details that include both implicit and explicit attitudes and opinions.

Criteria for awarding Honors: Obtaining an M. de H. will be possible from an overall grade >9.2/10 and with the discretionary consideration endorsed by the professor who signs the transcript of records.

## CRITERIA FOR THE AWARDING OF HONOURS:

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with 9 Distinction) may be awarded. Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.
