²List correlative learning outcomes following the nomenclature proposed.

Important note: The powers are expressed in a generic sense for what is needed in the teaching guide learning outcomes. These results are a realization of one or more skills, making explicit the degree of mastery or performance that the student must acquire in their formulation containing the standard by which they will be evaluated. Learning outcomes demonstrate what the student will be able to demonstrate at the end of the course or subject and also reflect the degree of acquisition of competence or skill set.

SYSTEM FOR ASSESSING THE ACQUISITION OF THE COMPETENCES AND ASSESSMENT SYSTEM		
Assessment Tool ⁴	LEARNING OUTCOMES ASSESSED	Allocated Percentage
Performing practical work	R1, R2, R4, R5	10%
Delivery of individual jobs	R2, R3, R4, R5, , R6	20%
Final Exam	R1, R2, R3, R4, R5	60%
Active participation in class	R1, R2, R4, R5	10%

The mention of “Honors” may be awarded to students who have obtained a grade equal to or greater than 9.0. Their number may not exceed five percent of the students enrolled in a group in the corresponding academic year, unless the number of students enrolled is lower.

- In accordance with the development guidelines of the General Regulations for the Evaluation and Qualification of Official Teachings

and UCV Own Degrees, in face-to-face degrees, class attendance with a minimum of 80% will be required.

of the sessions of each subject as a requirement to be evaluated. This means that, if a student does not attend sessions of each subject, in a percentage greater than 20%, cannot be evaluated, neither in the first nor in the second call, unless the person responsible for the subject with the approval of the person responsible for the degree, in view of exceptional circumstances, duly justified, exempt from the minimum attendance percentage.

- The same criteria will be applicable for hybrid or virtual degrees in which teachers must maintain the same percentage in the requirement of “presence” in the different training activities, if any, although these are performed in virtual environments.

- It is essential to pass the final exam (minimum grade 5 out of 10) to measure with the rest of the grades obtained in the subject. Failure to pass the exam means, consequently, the suspension of the call, being the grade in the minutes of the call the grade of the exam.

- In any of the cases, if the first call has not been approved, the student must take and pass the second call exam to pass the subject.

- The qualifications for practical deliveries are only obtained in the first call and those same ones will be computed grades in the second call to average with the exam in case of not passing the first announcement. However, the delivery of a single practice in the second call will be allowed, at the discretion of the teacher, who would replace the one not delivered or with a lower grade from the first call.

- Works submitted after the deadline will not be accepted.

⁴ Techniques and tools for evaluation: oral-exam, written tests (multiple choice tests, development, concept maps ...), tutorials, projects, case studies, observation notebooks, portfolio, etc..

Digital filming & video editing

- There may be practices, if the teacher so advises, that must be surpassed (5 out of 10) so that the overall practices compute in the mean.

- In no case can complementary works be submitted.

The exam will consist of a final project and a final exam. The final project will have a value of 20% of the final grade and will be tutored and followed by the teacher. While the final exam will have a value of 40% of the final grade. Total 60% of the final grade. To pass the subject it is essential to obtain at least a 5 on the exam, result which is obtained from the sum of the final tutored practice plus the final exam. It is essential to present the practice final to take the exam.

In accordance with article 9 of the General Regulations for the Evaluation and Qualification of Official Education and Titles Specific to the UCV, the continuous evaluation system is the preferred evaluation system at the UCV. The art. 10 It allows, however, for those students who, in a justified and accredited manner, express their inability to in-person attendance (or synchronous communication activities for virtual and/or hybrid teaching modalities), its evaluation on an extraordinary basis in the so-called single evaluation. This single evaluation must be requested within the first month of each semester to the Dean of Faculty through the Vice-Deaneries or Directorates of Master's Degree, with the express decision on the admission of said request from the student concerned being the responsibility of this.

- For the subject of Digital Video Recording and Editing, the evidence to be presented and/or the test/s to be performed in the single evaluation by the student are established are: Completion of theoretical-practical activities 40% and Final exam 60%

**ADDITIONAL INFORMATION:****TEACHING OF THE SUBJECT ON SECOND AND SUBSEQUENT ENROLLMENT:**

There will be a group for students who are not of first registration and a teacher in charge of that group.

This group will be a number set by the UCV of monitoring and tutoring sessions (February 6 hours each) in which to reinforce the work on skills that students need to acquire group to pass the course.

These sessions are included in the attached schedule in this guide and are detailed in the description of the teaching units of the course.
