Assessment system for the acquisition of competencies and grading system

In-class teaching

Assessed learning outcomes	Granted percentage	Assessment method
R1, R3, R4, R5, R6	75,00%	Oral and/or written tests employed in initial, training and/or summative student assessment.
R1, R2	5,00%	Attendance and active participation: lessons, group assignments and tutoring sessions. It will be monitored and registered by the teacher.
R1, R2	20,00%	Group assignments.

Observations

CRITERIA TO AWARD THE MENTION OF DISTINCTION:

Better results from 9.5 in the final grade, and show levels of excellence in Oral and/or written Tests used in the initial, formative and/or summative evaluation, Group work, as well as Attendance and active participation.

According to the general normative, only one Distinction may be granted to a student in a course of 20 students, not on the grounds of a fraction of 20, unless the number of students enrolled is under 20 in which case only one Distinction may be granted.

OTHER RELEVANT ASPECTS ABOUT ASSESSMENT:

In order to pass the course, the student must pass the different evaluation systems separately (Oral and/or written Tests used in the initial, formative and/or summative evaluation, Group work, as well as Attendance and active participation).

The final or summative evaluation is carried out through a written test.

Online teaching

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2, R3, R6	70,00%	Final evaluation consisting of essay questions and hypothetical scenarios.
R4, R5, R6	5,00%	Submitted tasks
R3, R5	5,00%	Periodical assessment through questionnaires
R2, R3, R4, R6	20,00%	Attendance and participation in synchronic communication activities.

Observations

CRITERIA TO AWARD THE MENTION OF DISTINCTION:

Better results from 9.5 in the final grade, and show levels of excellence in Final Evaluation, Deliverable Activities, Periodic Evaluations, as well as Attendance and participation in the activities.

According to the general normative, only one Distinction may be granted to a student in a course of 20 students, not on the grounds of a fraction of 20, unless the number of students enrolled is under 20 in which case only one Distinction may be granted.

OTHER RELEVANT ASPECTS ABOUT ASSESSMENT:

In order to pass the course, the student must pass the different evaluation systems separately (Final Evaluation, Deliverable Activities, Periodic Evaluations, as well as Attendance and participation in the activities).

The final or summative evaluation is carried out through a written test.

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with Distinction) may be awarded.

Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.
