Recommended knowledge

The subject Intervention and sociocultural animation reveals and deepens in different theoretical-practical approaches in the design, implementation and evaluation of programs and instrumental techniques of sociocultural dynamization and the promotion of citizen participation, both in excluded and disadvantaged populations and in groups integrated and standardized social networks. No prior knowledge (theoretical or instrumental) is required, but it is recommended that students are sensitized and aware of social problems and are predisposed to get involved in social development and citizen empowerment. It is also convenient for students to show their commitment to solidarity with excluded social groups and their integration and personal and community development.

Prerequisites

El alumno deberá cursar un mínimo de 30 ECTS de Optatividad, entre las asignaturas activadas en el curso académico.

Learning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

- R1 Knowing the concepts, theories and main models of Psychology in the community and social intervention context.
- R2 Being able to design intervention plans that are adequate to the different contexts of the community environment.
- R3 Knowing and acquiring the necessary skills for the correct management of the therapeutic relationship

Assessment system for the acquisition of competencies and grading system

In-class teaching

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2	50,00%	Oral and/or written tests employed in initial, training and/or summative student assessment.
R2, R3	20,00%	Presentation of practical activities.
R1, R2	10,00%	Attendance and active participation: lessons, group assignments and tutoring sessions. It will be monitored and registered by the teacher.
R1, R2, R3	20,00%	Group assignments.

Observations

The student must pass separately the different evaluation systems (attendance and active participation, practices and exam)' to pass the course.

Criteria for the awarding of Honor Grades "Evidence of levels of excellence in all competencies and learning outcomes"

Online teaching

Assessed learning outcomes	Granted percentage	Assessment method
R1	75,00%	Final evaluation consisting of essay questions and hypothetical scenarios.
	5,00%	Submitted tasks
	0,00%	Periodical assessment through questionnaires
	20,00%	Attendance and participation in synchronic communication activities.

Observations

The initial, formative and summative evaluation tests of the student will be written, combining the multiple choice format with short development questions. The practical activities, individual and group, will be evaluated from the submissions requested by the teacher and which will be included

in the student's portfolio. All deliveries will be made in the virtual classroom, according to the tasks created for this purpose. Class attendance and active participation in the activities and dynamics developed in the classroom will be assessed through rubrics and follow-up lists, with 10% of the final grade obtained by the student. In case of absence and in second calls, students will develop exercises and complementary practical activities proposed by the teacher.

REGISTRATION OF HONOR As a sign of academic exceptionality and according to the critical judgment of the teacher based on the grades obtained by the students and taking into account the participation, involvement and responsibility shown by them, adjusting to the pertinent regulatory framework, the teacher may distinguish those students who have obtained global qualifications higher than 9.50 points.

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with Distinction) may be awarded.

Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.

Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

- M1 Teacher presentation of contents, competency analysis, explanation and demonstration of capacities, abilities and knowledge in the classroom (presential modality).
- M2 Teacher-supervised groupwork sessions: case studies, diagnostic tests, problems, fieldwork, IT room, visits, data searches, libraries, web, Internet, etc. Building knowledge significantly through interaction and student activities (presential modality).
- M3 Supervised monographic sessions with shared participation.
- M4 Application of interdisciplinary knowledge.

- M6 Personalized attention in small groups. Training and/or orientation period by a teacher aimed at revising and discussing the materials and topics presented in the lessons, seminars, lectures, assignments, etc.
- M7 Set of oral and/or written tests employed in initial, training or summative assessment of the student.
- M8 Group preparation of readings, essays, problem resolution, seminars, assignments, reports, etc. to be presented or handed in during theory lessons, practical lessons and/or tutoring sessions in small groups. Tasks done on the platform or other virtual spaces.
- M9 Students' independent study: individual preparation of readings, essays, problem resolution, seminars, assignments, reports, etc. to be presented or handed in during theory lessons, practical lessons and /or small-group tutoring sessions. Tasks on the platform or other virtual spaces.
- M11 Teacher presentation of contents, competencies analysis, explanation and demonstration of capacities, abilities and knowledge on the virtual classroom.
- M12 Group work sessions via chat moderated by the teacher. Case studies –both real and fictional– aimed at building knowledge through interaction and students' activities. Critical analysis of values and social commitment.
- M13 Monographic sessions throughout the course, focused on current aspects and applications of the subject.
- M14 Set of oral and/or written tests employed in initial, training or summative assessment of the student.
- M15 Student's individual study: individual preparation of readings, essays, problem resolution, seminars, assignments, reports, etc. to be discussed or turned in in electronic format.
- M16 Individualized attention for the monitoring and orientation in the learning process, performed by a tutor in order to revise and discuss the materials and topics, seminars, readings and assignments, etc.
- M17 Group preparation of readings, essays, problem resolution, seminars, assignments, reports, etc. to be discussed or handed in.
- M18 Participation and contributions to discussion forums related to the subject and moderated by the module's teacher.

- M19 Problem resolution, comments, reports to be handed in according to the deadlines throughout the course.

Addendum to the Course Guide of the Subject

Due to the exceptional situation caused by the health crisis of the COVID-19 and taking into account the security measures related to the development of the educational activity in the Higher Education Institution teaching area, the following changes have been made in the guide of the subject to ensure that Students achieve their learning outcomes of the Subject.

Situation 1: Teaching without limited capacity (when the number of enrolled students is lower than the allowed capacity in classroom, according to the security measures taken).

In this case, no changes are made in the guide of the subject.

Situation 2: Teaching with limited capacity (when the number of enrolled students is higher than the allowed capacity in classroom, according to the security measures taken).

In this case, the following changes are made:

1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject will be made through a simultaneous teaching method combining onsite teaching in the classroom and synchronous online teaching. Students will be able to attend classes onsite or to attend them online through the telematic tools provided by the university (videoconferences). In any case, students who attend classes onsite and who attend them by videoconference will rotate periodically.

In the particular case of this subject, these videoconferences will be made through:

Microsoft Teams

Kaltura

Situation 3: Confinement due to a new State of Alarm.

In this case, the following changes are made:

1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject, as well as the group and personalized tutoring, will be done with the telematic tools provided by the University, through:

Microsoft Teams

Kaltura

Explanation about the practical sessions:

2. System for Assessing the Acquisition of the competences and Assessment System

ONSITE WORK

Regarding the Assessment Tools:

The Assessment Tools will not be modified. If onsite assessment is not possible, it will be done online through the UCVnet Campus.

The following changes will be made to adapt the subject's assessment to the online teaching.

Course guide		Adaptation	
Assessment tool	Allocated percentage	Description of the suggested changes	Platform to be used
Oral and / or written tests	75%	Oral and / or written tests used in the initial, formative and / or summative evaluation of the Student will amount to 75% of the qualification	Aula Virtual -Teams

The other Assessment Tools will not be modified with regards to what is indicated in the Course Guide.

Comments to the Assessment System:

A discussion forum will be established on group situations and topics typical of Group Psychology such as conflict, negotiation, leadership, group norms ... - 5 hours. A virtual tutorials model will be developed for individualized monitoring of each student - 5 hours).

The system of practical activities will adopt the format of seminars and virtual videoconferences (spoken power point, and case study sessions (synchronous and asynchronous) - 4 hours.

Virtual practical sessions will be held (Guided web browsing and case studies) - 10 hours.

ONLINE WORK

Regarding the Assessment Tools:

- The Assessment Tools will not be modified. If onsite assessment is not possible, it will be done online through the UCVnet Campus.
- The following changes will be made to adapt the subject's assessment to the online teaching.

Course guide		Adaptation	
Assessment tool	Allocated percentage	Description of the suggested changes	Platform to be used

The other Assessment Tools will not be modified with regards to what is indicated in the Course Guide.

Comments to the Assessment System:
