Assessment system for the acquisition of competencies and grading system

In-class teaching

Assessed learning outcomes	Granted percentage	Assessment method
	60,00%	Oral and/or written tests employed in initial, training and/or summative student assessment.
	20,00%	Presentation of practical activities.
	10,00%	Attendance and active participation: lessons, group assignments and tutoring sessions. It will be monitored and registered by the teacher.
	10,00%	Group assignments.

Observations

Individual assessment is written (oral assessments could be done if it is necessary). The test type can be combined with development questions (ASSESSMENT 1). Active participation is valued through the practical activities developed throughout the class teaching (ASSESSMENT 2). The student must pass the different evaluation systems separately (attendance and active participation, practices and exam).

For the granting of the Honors it will be necessary to demonstrate levels of excellence in all competencies and learning outcomes.

Online teaching

Assessed learning outcomes	Granted percentage	Assessment method
	70,00%	Final evaluation consisting of essay questions and hypothetical scenarios.
	5,00%	Submitted tasks
	25,00%	Attendance and participation in synchronic communication activities.

Observations

Individual assessment is written (oral assessments could be done if it is necessary). The test type can be combined with development questions (ASSESSMENT 1). Active participation is valued through the practical activities developed throughout the class teaching (ASSESSMENT 2). The

student must pass the different evaluation systems separately (attendance and active participation, practices and exam).

For the granting of the Honors it will be necessary to demonstrate levels of excellence in all competencies and learning outcomes.

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with Distinction) may be awarded.

Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.

Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

- M1 Teacher presentation of contents, competency analysis, explanation and demonstration of capacities, abilities and knowledge in the classroom (presential modality).
- M2 Teacher-supervised groupwork sessions: case studies, diagnostic tests, problems, fieldwork, IT room, visits, data searches, libraries, web, Internet, etc. Building knowledge significantly through interaction and student activities (presential modality).
- M3 Supervised monographic sessions with shared participation.
- M4 Application of interdisciplinary knowledge.
