

Information about the subject

Degree: Official Master's Degree in Specialised Speech and Language Therapy Intervention

Faculty: Faculty of Psychology

Code: 1840004 **Name:** Speech and Language Therapy Intervention in Dyslexia

Credits: 6,00 **ECTS Year:** 1 **Semester:** 2

Module: Speech and Language Therapy in Language Developmental Disorders

Subject Matter: Speech Therapy Intervention in Developmental Language Disorders **Type:**

Compulsory

Department:

Type of learning: Blended

Languages in which it is taught: Spanish

Lecturer/-s:

LOGOP Ana Maria Pellicer Magraner (**Responsible Lecturer**) anamaria.pellicer@ucv.es
Nuria Jesus Senent Capuz nuria.senent@ucv.es

Module organization

Speech and Language Therapy in Language Developmental Disorders

Subject Matter	ECTS	Subject	ECTS	Year/semester
Speech Therapy Intervention in Developmental Language Disorders	18,00	Speech and Language Therapy Intervention in Autism Spectrum Disorders	6,00	1/2
		Speech and Language Therapy Intervention in Dyslexia	6,00	1/2
		Speech and Language Therapy Intervention in Specific Language Disorders	6,00	1/2

Recommended knowledge

None

Learning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

- R1 Students know how to plan and implement speech-language pathology assessment and intervention in accordance with evidence-based practice.
- R2 Know and are able to manage the materials and technological resources used in speech therapy intervention in developmental language disorders.
- R3 Prove skills to cooperate with other professionals in the process of speech therapy intervention in developmental language disorders.

Competencies

Depending on the learning outcomes, the competencies to which the subject contributes are (please score from 1 to 4, being 4 the highest score):

BASIC		Weighting			
		1	2	3	4
CB6	Possess and understand knowledge that provides a basis or opportunity to be original in the development and/or application of ideas, often in a research context.		X		
CB7	Students are able to apply their acquired knowledge and problem-solving skills in new or unfamiliar environments within broader (or multidisciplinary) contexts related to their area of study.		X		
CB8	Students are able to integrate knowledge and deal with the complexity of making judgements based on information which, being incomplete or limited, includes reflections on the social and ethical responsibilities linked to the application of their knowledge and judgements.			X	
CB9	Students know how to communicate their findings - and the ultimate knowledge and reasons behind them - to specialist and non-specialist audiences in a clear and unambiguous way.			X	
CB10	Possess the learning skills to enable them to continue studying in a largely self-directed or autonomous manner.		X		

GENERAL		Weighting			
		1	2	3	4
G1	Make decisions and take responsibilities.		X		
G2	Search, evaluate, organize and manage information systems.			X	

SPECIFIC		Weighting			
		1	2	3	4

E6	Have a critical attitude and apply scientific methodology for the selection, development, and implementation of instruments and methods for the exploration, evaluation, and diagnosis of human communication disorders.					X
E7	Students prove to be able to select or design treatments for human communication disorders based on scientific evidence and to argue the selection criteria based on variables focused on the individual or the environment.					X
E9	Analyse interdisciplinary information to integrate it into the framework of global treatments for people with communication disabilities.					X

TRANSVERSAL

Weighting

1 2 3 4

T3	Have the flexibility to work within teams made up of other professionals from the same field.					X
T4	Plan and execute action plans by adequately managing time, material and professional resources available.				X	
T5	Know and use the appropriate form for the publication of scientific, clinical, or research papers in the area of speech therapy knowledge.				X	

Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2	10,00%	Attendance and participation of in-person formative activities
R1, R2, R3	30,00%	Practical work assignments assessment
R1, R2, R3	5,00%	SEMINARS. Participation reports and the preparation of studies or essays on the topic of the seminars will be evaluated.
R1, R2, R3	40,00%	Written exam
R1, R2, R3	15,00%	GROUP WORK: oral presentations, online presentations, generation of grey literature.

Observations

CRITERIA TO AWARD THE MENTION OF DISTINCTION:

Better results from 9.5 in the final grade, and show levels of excellence in practical activities, as well as in attendance and active participation in class.

According to the general normative, only one Distinction may be granted to a student in a course of 20 students, not on the grounds of a fraction of 20, unless the number of students enrolled is under 20 in which case only one Distinction may be granted.

OTHER RELEVANT ASPECTS ABOUT ASSESSMENT:

In order to pass the course, the student must pass the different evaluation systems separately (attendance and active participation, group work and written tests).

The continuous evaluation will be carried out through attendance and active participation and the weighting of the different evaluation elements.

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with Distinction) may be awarded.

Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.

Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

- M1 Theoretical class
- M2 Practical lesson
- M3 Seminar
- M4 Group work exhibition
- M5 Tutorships

IN-CLASS LEARNING ACTIVITIES

	LEARNING OUTCOMES	HOURS	ECTS
THEORETICAL CLASS (face-to-face or online). Presentation of contents by the teacher. Analysis of competences. Explanation and instruction in the skills derived from the competences. M1	R1, R2	9,00	0,36
PRACTICAL CLASS IN PERSON. Group work sessions supervised by the teacher. Observation and participation in assessment sessions and speech therapy intervention in real contexts. Analysis and discussion of clinical cases. M2	R1, R2, R3	9,00	0,36
SEMINARS (face-to-face or online). Monographic sessions with the participation of students, teachers and professionals, focusing on specific aspects related to the competences of the module. M3	R3	3,00	0,12
EXHIBITION OF INDIVIDUAL OR GROUP WORK. Written, oral or multimedia presentations on the results of the theoretical and practical study of the contents. M4	R1, R2, R3	3,00	0,12
TUTORIALS (face-to-face or online). Small group or personalised attention, for instruction and guidance by the teacher, with the aim of reviewing and discussing the materials and topics presented in the classes, seminars, readings, completion of assignments, reports, etc. M5	R1	4,50	0,18
EVALUATION TESTS. A set of oral and/or written tests used in the initial, formative or summative evaluation of the student. M1	R1, R2, R3	1,50	0,06

TOTAL		30,00	1,20
--------------	--	--------------	-------------

LEARNING ACTIVITIES OF AUTONOMOUS WORK

	LEARNING OUTCOMES	HOURS	ECTS
AUTONOMOUS WORK OF THE STUDENT. Student's personal study. Individual preparation of readings, essays, problem-solving, seminar material, assignments, reports, etc. to be presented or handed in at classes, to complete their training activity and to prepare their assessment tests. M4	R1, R2, R3	96,00	3,84
GROUP WORK WITHOUT TEACHER SUPERVISION. Group work on readings, essays, problem-solving, seminar material, assignments, reports, etc. to be presented in class, to complete their training activity and prepare their assessment tests. M5	R1, R2, R3	24,00	0,96
TOTAL		120,00	4,80

Description of the contents

Description of the necessary contents to acquire the learning outcomes.

Theoretical contents:

Content block	Contents
Topic 1	Introduction. Processing of written language. Scientific evidence
Topic 2	Language processing and dyslexia. Relations between oral and written language: semantic, morphosyntactic and pragmatic levels
Topic 3	Speech processing and dyslexia. Relations between oral language and written language: phonological level
Topic 4	Assessment of reading and writing processes: performance assessment, processes assessment, assessment of related aspects. Revision of diagnostic criteria
Topic 5	Intervention in reading disabilities: difficulties in lexical access and comprehension difficulties
Topic 6	Intervention in writing difficulties: disabilities in graphism and orthography
Topic 7	Scopes of intervention: individual, family and school

Temporary organization of learning:

Block of content	Number of sessions	Hours
Topic 1	1,00	2,00
Topic 2	1,00	2,00
Topic 3	1,00	2,00
Topic 4	2,00	4,00
Topic 5	5,00	10,00
Topic 6	4,00	8,00
Topic 7	1,00	2,00
